more remarkable than its increasing population. I am hardly astonished at Cheago's growth, but I am astonished at Cheago's growth, but I am astonished at the comparative lethargy shown by St. Louis. It has been the theory of railroad-men that there were to be but three great cities in America in the first sense of the word—viz., New York, St. Louis, and San Francisco. And yet we see St. Louis dropping out of its place as the fourth city in America, which Chicago takes—and even having to drop behind prim conservative Boston, which takes the fifth place, and barely holding the sixth place. St. Louis seems to have been fairly prosperous during the past ten years, and her poor showing for 1880 suggests the suspicion that she was overrated in 1870—and now sinfers by comparison. Chicago, though, has got the "call" on all the Northwest, and her people declare that she will bustle up to the second place in the next ten years, and after that will try conclusions with New York itself.

SOME QUEER INDUSTRIES IN NEW YORK. The investigations of the census men have led to some queer developments in the manufactories of New York and adjoining cities. The largest single industry in New York is that of custom-made clothes. The making of paper patterns employs hundreds of hands, and ten large houses being engaged in it, use tons of paper. There are factories for making dried blood, the dummies that milliners use to show dresses on, theatrical armor, and Jews-harps. The use of adulterating substances is getting to be general. The ceremony was performed by Rev. J. G. Armstrong, D. D., rector of the church, assisted by Rev. Charles Minnigerode, D. D. of St. Paul's church. The church was lighted by gas. and the service was very impressively rendered. The bride, one of Richmond's most attractive young ladies, was handomely attired in a travelling suit of black, and after the ceremony the couple preceeded to the Union deror, where they took the northward-bound train for a wedding tour. THE SNOW CASES-CITY-ATTORNEY KEI-LEY WILL NOT APPEAL -In view of the decision of Judge Christian, of the Hustings Court, published yesterday, Police-Justice Richardson addressed a communica-

tion to City-Attorney Keiley, in which Mr. Richardson says:
"In the case of Cannon vs. The City of Richmond, an appeal from my judgment imposing a fine of \$2 on the appellant for violating section 52 of chapter 34 of the City Ordinances, questions as to the legality and reasonableness of the ordinance, and the practicability of a compliance therewith, were for the first time raised, discussed, and judicially determined on yesterday by the judge of the Hustings Court.

"Judge Christian decides that the provisions of the ordinance are uareasonable. and should on this ground be held to be void.' I desire to act in conformity with the decisions of the appellate court. Several other persons were fined by me for similar offences incurred by a failure on their part to comply with the requirements of the same ordinance, I deem it proper, in view of this decision, to return to them the money thus paid before it is covered into

the city treasury. .. The purpose of this communication is respectfully to inquire whether or not it is your purpose to prosecute the matter

further. Mr. Keiley, in reply to the Police Justice, said that it was not his purpose to appeal from the decision of Judge Christian. The fines imposed by the Police Justice will be returned to the parties.
